

Petition to Save the First Amendment

We The People Cherish the First Amendment.

We hold dearly our right to freedom of speech and the right for others to express their views. We believe that Government should stand aside rather than stand in the way of the discussion of ideas. We believe that because the First Amendment should be about freedom of choice.

Therefore, we the undersigned oppose all efforts of any Government to limit, censor or restrict in any way our unfettered right to free speech on our radios, televisions, the Internet or any other medium.

We reject any effort to institute (1) the "Fairness Doctrine" or (2) "localism", which in its various forms seeks to establish local committees of "community leaders" to determine if local talk radio is "reflecting" the views of the community, or (3) a quota system for ownership of radio stations – or any variance of any of those.
